

Prisma Health Research Showcase ABSTRACT REVIEW RUBRIC

Abstract Number:

Abstract scoring will be utilized to determine presenters for the Prisma Health Research Showcase. Circle the appropriate score for each criterion (see scoring rubric below). The total score does not need to be calculated on this sheet as it will be determined by the Research Showcase organizers.

REVIEW CRITERIA	SCORE
Purpose Statement <ul style="list-style-type: none"> Is there a clear statement of the project's purpose or significance? Does the abstract fit into one of the Showcase's project categories (a Prisma Health priority)? Are the preliminary data/literature references provided adequate to justify the project? Is there current attention to the topic? Is it timely and applicable? 	1 2 3 4 5
Methods / Methodological Approach <ul style="list-style-type: none"> Is the design of the project appropriate for the questions posed? Are the proposed outcome measures appropriate for design and project rationale? Are the investigative/programmatic methods/interventions appropriately related to the project intent? 	1 2 3 4 5
Results <ul style="list-style-type: none"> How relevant are the ideas presented to the health science field? Is the matter discussed/presented logically? Did the results explain what was expected, discovered, accomplished, collected, and/or produced? 	1 2 3 4 5
Conclusion <ul style="list-style-type: none"> How relevant are the conclusions in contributing to the health science discipline? Are the conclusions supported by the results provided? 	1 2 3 4 5
Quality of Written Abstract <ul style="list-style-type: none"> How clearly written and free of significant grammatical problems is the text? Is the abstract coherent? Does the abstract content specific to presenting topic (i.e. abstract title)? Is the project unique and unexpected? 	1 2 3 4 5
TOTAL SCORE	

Scoring rubric:

- 5 (Excellent): extremely complete and accurate in every way
- 4 (Very Good): very minor omissions in detail but not in content
- 3 (Good): a small weakness found in content or format
- 2 (Fair): an important weakness found in content or format
- 1 (Poor): a major weakness found in content or format

*Scores of 1 or 5 should only be used in exceptional cases.

Project categories:

- Health Care Innovations Spurred by Novel Challenges
- Value-Based Care / Quality & Safety / Process Improvement
- Evidence-Based Inclusive Research / Community-Based Healthcare Delivery
- Developing and Supporting the Healthcare Workforce
- Basic Science and Translational Research
