

*Sponsor Opportunities for the inaugural*

## Geochemical Modeling: PHREEQC and Beyond Conference and Course

**Call for Sponsors:** This sponsorship opportunity is for the first conference and course event titled, **Geochemical Modeling: PHREEQC and Beyond**. This event will draw participants and presenters to focus on best practices and innovative projects using PHREEQC, a powerful reactive transport modeling tool developed by the U.S. Geological Survey and used by water agencies and consultants worldwide to perform aqueous geochemical simulations.

S.S. Papadopoulos  
& Associates, Inc.

Organized by S.S. Papadopoulos & Associates, GSI Environmental, Summit Water Resources, University of Nebraska, and ObjectiveGeochemistry, this event offers presentations by industry leaders, networking opportunities with water purveyors and regulatory agencies, and the opportunity to expand your knowledge and capabilities using PHREEQC.

**Expose your organization to the following types of event presenters and participants:**

- Environmental scientists and practitioners
- Researchers, academics, and students
- Geochemical modelers and developers
- Federal, state, and local government agencies
- Consultants
- Water managers
- Students – **Potential Recruits!**
