We Provide You Unique Support and Innovative Resources

GHC provides an interdisciplinary health care team who work together with ADMG to support and improve the health of our patients. We offer a spectrum of services aimed at health promotion, prevention of illness and management of chronic conditions, along with specialized programs such as Cardiac Rehab, Asthma/COPD, Anti-coagulation, HepC and HIV to name a few. We also provide a seamless support infrastructure with a history of innovative approaches, from being the first to hire NPs, developing chronic care programs, and leveraging technology by having an ePrescribe platform, electronic medical record system and patient portal.
