

**IDIVOSH**  
2023 MONTRÉAL

## Sponsorship Plan

**Global Forum – Immigration, Diversity of the Workforce,  
Precariousness and Vulnerabilities in OSH (IDIVOSH 2023)**

Montreal, June 13–14, 2023

## ■ THE EVENT

This inaugural edition of the IDIVOSH global forum will focus on the theme Immigration, Diversity of the Workforce, Precariousness and Vulnerabilities in OSH. The event is intended to pursue the development of research programs related to workforce diversity, immigrant workers and occupational safety and health (OSH), and to learn from the various experiments that have been conducted around the world. Due to their sociodemographic or professional characteristics and the work contexts that may be associated with them, these workers run a greater risk of occupational injuries or long-term disability.

We welcome organizations that would like to sponsor the Global Forum – Immigration, Diversity of the Workforce, Precariousness and Vulnerabilities in OSH (IDIVOSH 2023). Various sponsorship categories are available, each of which offers benefits proportional to the amount invested. The general benefits are as follows:

- The sponsor's logo and name and a link to its website in the "Sponsors" section
- The sponsor's logo in the Conference Proceedings
- Mention of the sponsor's name during the conference

## ■ KEY STRENGTHS OF THE EVENT

- More than 150 participants: scientists, partners in the OSH world, and community organizations that support these kinds of workers;
- Presentation of over 400 oral and poster communications;
- Strong potential for networking and information sharing.

## ■ TARGET PUBLIC

- OSH researchers interested in questions concerning immigrant workers or workers from various minorities (including First Nations and temporary migrant workers), and the factors that make these groups on the fringes of the working population more vulnerable
- Students and postdoctoral researchers working with these researchers
- Decision-makers and managers: government ministries and agencies, public organizations, international agencies (e.g., ILO, WHO, ISSA)
- Members of civil society and non-governmental organizations, community groups and NPOs, unions and employer associations, joint sector-based associations.

## ■ BENEFITS OF YOUR SPONSORSHIP

- Visibility for your organization (logo and company name) in strategic locations during the forum;
- Access to a targeted pool of scientists, including graduate students near the end of their studies and young researchers;
- Promotion of your organization on specialized content platforms (event website and social media).

## ■ VISIBILITY PLAN\*

BENEFITS	GOLD SPONSOR \$5,000	SILVER SPONSOR \$3,500	BRONZE SPONSOR \$2,500	KEYNOTE SPEAKER SPONSOR \$2,000	SCHOLARSHIP SPONSOR \$500 <sup>1</sup>
General benefits: <ul style="list-style-type: none"> <li>• The sponsor's logo and name and a link to its website in the "Sponsors" section</li> <li>• The sponsor's logo in the Conference Proceedings</li> <li>• Mention of the sponsor's name during the conference</li> </ul>	✓	✓	✓	✓	✓

\*The committee reserves the right to accept or refuse any sponsorship. The chosen partners must be aligned with the event's mission and its organization. They must not damage the reputation of the 2023 Forum or its organization and must not project an image contrary to the principles they adhere to.

Would you like to purchase a stand space without sponsoring other sections of the event? Contact Maura Tomi for more information. ([maura.tomi@irsst.qc.ca](mailto:maura.tomi@irsst.qc.ca))

<sup>1</sup> Scholarship sponsors will make it possible to offer \$500 travel allowances to students from outside Quebec so they can take part in the Global Forum – Immigration, Diversity of the Workforce, Precariousness and Vulnerabilities in OSH (IDIVOSH 2023).

## About the Institut de recherche Robert-Sauvé en santé et en sécurité du travail (IRSST)

The IRSST is a scientific research organization known for the expertise of its personnel and the quality of its achievements. Its priorities are set by taking into account the needs expressed by its workplace partners and looking prospectively at emerging problems. Its research team of 40 individuals includes researchers, professionals and technicians from disciplines ranging from ergonomics, anthropokinetics, biomechanics, industrial hygiene, physics, chemistry, biology, microbiology, toxicology, epidemiology, engineering, anthropology, demography, psychology and management to economics.

## Mission

In keeping with the spirit of the Act respecting occupational health and safety (AOHS) and the Act respecting *industrial accidents and occupational diseases* (AIAOD), the IRSST's mission is:

To contribute to workers' health and safety through research, its laboratories' expertise, and knowledge dissemination and transfer, with a view to promoting prevention and sustainable return to work.
