

## Office of Sponsored Programs (OSP)

**Our purpose:** As part of its mission to help people live their healthiest lives, Prisma Health recognizes the value in leveraging externally funded grants in its pursuit of scientific advancements, innovative community programs and scholarly activity. Our Division of Research supports rapid research and innovation within a learning health organization to enhance success in a value-based environment.

**Our role:** OSP maintains complete and accurate information on sponsored programs activity, develops and communicates standard policies and procedures, and provides grant management expertise throughout each step of the grant life cycle.

### Our services:

- **Finding funding and building a team** – Access resources to find the best funding. Connect with clinicians to discuss ideas. Engage sponsors for feedback on concepts.
- **Proposal development and submission** – Professional research administration support resulting in a complete, compliant, on-time submission to the sponsor.
- **Post-award financial management** – Financial administration and award oversight throughout the project period including funds management and reporting.
